Voyage to the Veneto

Visions of Venice - The future lies in the past

One of the most unique cities in the world, Venice straddles several worlds. It is a Mysterious, Magical city of canals, lanes, small and large squares.

Divided into six unique sestieri, or districts, each has its own style.

- 117 Islands
- 177 Canals
- 455 bridges

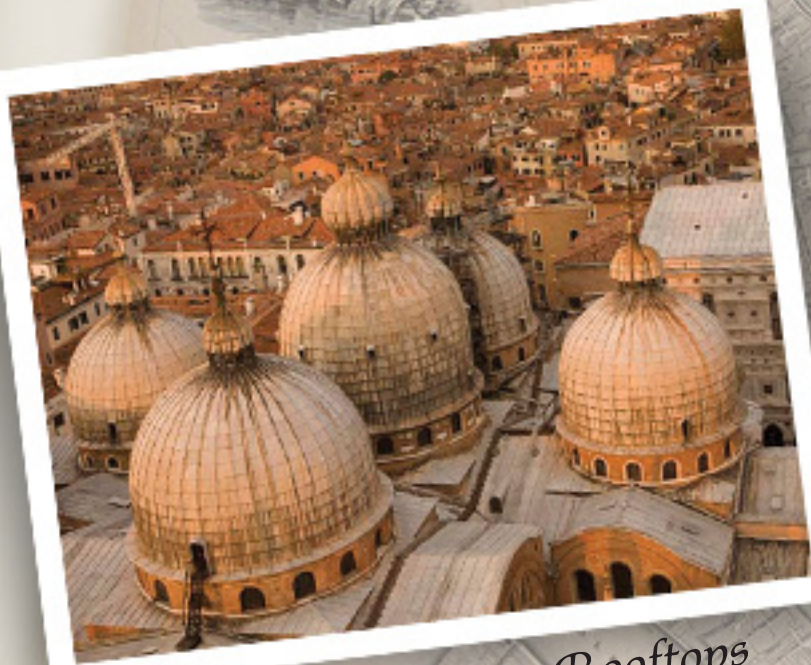

The Architecture takes the sea as its theme:

- The hulls of boats are copied in the roofs of the churches,
- Spiral adornments that embellish the Gothic portals,
- Marble and statues that adorn palaces and houses.

La perla della laguna

Illuminated by water reflections, The Arts & Interior Design also reflect the maritime power in her time of glory.

Absorb the sights and sounds of this vibrant city. Let it motivate you and transport you back in time.

Venice Rooftops

MOTIVATE

Venice is famous for its musical history - particularly operatic. The opera house "Teatro La Fenice" or "The Phoenix" has been twice burned and rebuilt. It was reopened in December 2003.

We will visit and have cocktails in a private room at the theatre.

A good read: "The City of Falling Angels" by John Berendt - about the Fenice fire and rebuilding - reveals Venice in all its magic, mystery, and decadence.

Happy Reading!
